protection opportunities over the upcoming calendar year. These objectives go through Board-level sign off at each portfolio company. We have seen this driving considerably improved ESG performance amongst our portfolio companies. Furthermore, we aggregate our portfolio company ESG data to provide a holistic view of the portfolio - highlighting ESG related opportunities and concerns.

Our approach to RI is also embedded in each "department" of our management company through education around RI, and also reflected in the honest and

transparent approach which we take to working with our stakeholders. It is also captured on our website: "Our focus is always on value creation and capital return to benefit our stakeholders. Financial return is at the core of our dealings but we are responsible in our approach and work hard to behave "in the right

way". Our people and our networks are the lifeblood of our business and the basis of our financial performance. Mandatory

Indicate if your organisation's investment guidelines for private equity refer to responsible investment.

✓ Our investment guidelines do refer to responsible investment

Describe how your organisation's investment guidelines outline your expectations on staff and portfolio companies' approach towards ESG issues [Optional].

We have an RI policy that is required to be read by all the new business team. The policy imparts the obligations of the new business team at a high level, ensuring they will screen, monitor, analyse and review ESG progress. These quidelines are available freely within the firm and present in all new business folders. This integrated approach serves to guide our ESG approach at staff and portfolio company level. Similarly, we ensure all ESGrelated material that is distributed clearly outlines how and why we approach ESG with the importance we do (which creates a degree of buy-in).

Our Managing Partner sends a personal letter to each CEO, prior to our vist to measure ESG performance and create ESG objectives, that outlines the shared importance of the subject.

At portfolio company level, each Chairman contractually commits to participate in and support our ESG efforts. In the legal acquisition documentation, we are increasingly making an obligation to share our ESG efforts legally binding.

PPM excerpt: "As a market leader with a strong presence in the North of England, NorthEdge places significant importance on the Firm's environmental and social governance credentials. As a consequence, the Firm commits both energy and resources to ensuring that it is seen as the private equity partner of choice in the North of England and the broader Expanded North. NorthEdge believes that the essential elements in creating a successful and sustainable business platform involve taking a long term approach to portfolio companies, maintaining and developing strong relations built over the Partners' significant operating history, and creating an atmosphere of openness and transparency with key stakeholders.

The North Edge ethos of "excellence in operations" extends to both Firm and portfolio company business endeavours, encouraged and implemented the North Edge ethos of "excellence in operations" extends to both Firm and portfolio company business endeavours, encouraged and implemented the North Edge ethos of "excellence in operations" extends to both Firm and portfolio company business endeavours, encouraged and implemented in the North Edge ethos of "excellence in operations" extends to both Firm and portfolio company business endeavours, encouraged and implemented in the North Edge ethos of "excellence in operations" extends to both Firm and portfolio company business endeavours, encouraged and implemented in the North Edge ethos of the Nthrough key methodologies and action plans formulated within the NorthEdge ESG Framework. NorthEdge utilises various techniques, including ESG screening, pre-investment checklists and dedicated ESG Monitoring Tools to consistently and successfully implement Firm objectives. The Firm is also a signatory of the United Nations-backed Principles of Responsible Investment, and achieved Group "B" in 2014 with an ambition for Group "A" by 2017. NorthEdge's achievements in this field have been formally recognised with the Firm being nominated and winning the BVCA Responsible Investment Award in 201481, referencing the Firm's outstanding practices and taking into account the implementation of the overall ESG framework at Firm level.

In conjunction with NorthEdge's principled investment and governance framework, the Firm delivers transparency to Investors through detailed regular reporting, codified into the governing documentation relating to the Fund. With direct Partner responsibility at the COO level and implemented by a professional finance team headed by an experienced CFO, NorthEdge ensures that key stakeholders are continually updated and informed on Firm and portfolio developments. Valuations are prepared in accordance with IPEV guidelines, reflecting current best practice and consistency with regards to conceptual, practical and investor reporting standards. In addition, regular investor updates are provided through a variety of means including formalised processes such as the annual Investor Meeting and meetings of the Advisory Board initiated and facilitated by Managing Partner interaction and oversight.

NorthEdge also fully acknowledges the benefits that can be brought to local communities and economies by taking an active role in the environment in which it operates. Since inception, the Firm has developed strong relationships with local institutions including charities and educational centres such as the Manchester Business School. Not only do these endeavours seek to ensure that NorthEdge has a positive socio-economic effect in the North of England and the broader Expanded North, they often provide the Firm with first look access to local top rate talent emerging from one of the leading higher education centres within UK, as evidenced by existing members of the Investment Team.

Our investment screen will include direct engagement with the company. We will perform a desktop search on accreditations, industry standards and ad-hoc analysis (e.g. trading countries or key supplier relationships). We will seek specific external due diligence projects where deemed necessary by the investment team or by Investment Committee PE 9.1 ✓ Yes ☑ In writing ✓ Verbally/through dialogue Other, specify PE 9.2 Prior to investment, our deal team informs management of our commitment to ESG. Immediately prior to going through our monitoring tool for the first time, our Managing Partner sends a letter outlining the why and how of our approach to ESG - imparting the importance of their support and commitment to it. Our (partially) dedicated ESG manager will then perform an ESG presentation for management and guide them through the completion of our monitoring tool. The tool is completed by 100% of the portfolio, with exception only for those in an exit process. For each, improvement opportunities across environmental, social and governance metrics are identified for the next calendar year In an increasing number of new investments, we are also instilling adherence to our ESG approach into the legally binding acquisition documents. We take a pro-active approach to any ESG-related issues in portfolio companies. Alongside an annual report to our investors, we have committed to inform investors as soon as practical following a major ESG incident and are working to bespoke this reporting to ESG factors which specific LPs hold most dear. ESG is reported on quarterly and annually as part of our normal reporting procedures. Our incident reporting is therefore approached on a case-by-case basis. For a specific incident, it would likely be relayed by our Managing Partner - direct to the LPs.
